RAS FIS FJHS

Dear Parents,

I wanted to make everyone aware of the stomach virus that has been going around. With all the regular illnesses like colds, flu, and strep throat we now have a large number of students with a tummy bug. This virus seems to be lasting about 24-48 hours. I have not seen many fevers with it. Complaints are generally nausea, vomiting, diarrhea, and headache. I do ask that you please keep your child at home if they have thrown up the morning of school or complain of nausea or stomach pain. If your child has had a fever they are not allowed to come back to school until fever free for 24 hours undedicated. Thank you so much for your cooperation. This is for the protection of all students and their families.

Sincerely,

Lori Moreno
School Nurse
