 POSSIP

Be on the lookout for an email from your school to participate in our monthly 3-question survey to gather valuable feedback from our families. As you may recall, in the spring of last year you were given a survey that asked a series of questions about our schools. You provided valuable insight and feedback that has led to positive changes! Some of these changes and additions include a focus on mental health (3 social workers were hired), initiatives to improve school climate/culture, anti-bullying programs, and career-based courses. Please continue to provide monthly feedback through the FCS POSSIP app. The first survey will come through your phone or email on Thursday, October 12th.
