Kaneal G. Alexander (center), GIVE Grant coordinator with Motlow State Community College, is pictured here with Rujena Dotson (at left), supervisor, and Tricia Jean, Fayetteville Middle School principal, during a visit to FMS today. Alexander’s visit is part of the Governor’s Investment in Vocational Education (GIVE) program which prioritizes learning opportunities in rural counties and enhances career and technical education statewide. GIVE Grant funding, part of Motlow’s Teaching Innovative Learning Technologies (TILT) initiative, is providing iPads and a cart, along with instructor training, for students to be able to obtain coding training at FMS.
